Power Bank Build-in LiFePO4 12.8V 160Wh Battery (50400mAh/3.2V)

Power Bank With LED Lighting

With 1pc 16V 48W Solar Panel (5M Cable)

AC Output: 220V 150W-200W

With 4pcs 12V 5W LED Bulbs (5M Cable) With 1M USB Charging Cable (5 Types)

Total DC Output: 12V 60W (can charge upto 6 items at one time)

Total USB Output: 3.1A

Function protection:

Undervoltage protection, Overvoltage protection, Overcurrent protection, Overload protection, Short circuit protection, Overheat protection

220V Output support range:

Electric bicycle charging, Electric fan, LCD TV, Laptop, Printer, Cash register, Small pump, Emergency lighting, etc.

12V Output support range:

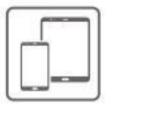

Suitable for all 12V products, such as 12V LED bulbs, Surveillance video head, beauty machine or manicure machine etc.

5V Output support range:

Suitable for all 5V charging products, such as smart phone, tablet PC, camera, multimedia player etc.
